

BlueDriver will match your vehicle's make, model, and trouble code to a specific fix from a database of millions of repairs. Your Repair Report will always contain fixes that have been verified by Professional Automotive Technicians, so no more googling unreliable fixes that waste your time and money.

Unmatched Coverage

BlueDriver Offers More. Period.

BlueDriver reads (and clears) all the codes the other guys read and the ones they don't. BlueDriver's Enhanced Diagnostics give you complete access to information normally only accessible to professional mechanics on their most expensive scan tools.

What are ENHANCED diagnostics?

All vehicles with an OBD2 port are required to output basic information when the Check Engine Light comes on. However, a lot of important information (such as ABS, Airbag, Climate Control, etc.) is left behind by the other scan tools. Only BlueDriver gives you the complete set of diagnostics on a wide range of manufacturers.

Get Enhanced Diagnostics on:

GM	Including Chevrolet, GMC, Cadillac, Buick, Saturn, Pontiac, etc.
Ford	Including Ford, Lincoln, & Mercury
Chrysler	Including Chrysler, Dodge, Jeep, Ram, & Plymouth
Toyota	Including Toyota, Lexus, & Scion
Nissan	Including Nissan, Infiniti, & Renault
Mazda	All
Subaru	(sold in the US)
Mitsubishi	(2008 models & newer)

Hyundai	Including Hyundai & Kia (2011 models & newer)
Mercedes	Including Mercedes & Smart (2005 models & newer)
BMW	(sold in North America) including BMW & Mini (2005 models & newer)
Honda	(sold in North America) including Honda & Acura (2003 models & newer)
Volkswagen	(sold in North America) including VW, Audi, Lamborghini & Bentley

*Please note, while Enhanced Diagnostics may not yet be offered on your vehicle, **all other BlueDriver features, including trouble code lookup and Repair Reports** work on ANY vehicle with an OBD2 port.*
